

Learning A-Z Science Curriculum Named to New Mexico Public Education Department's List of Approved Science Resources

Award-winning Science A-Z science curriculum brings engaging science experiments, hands-on activities, and collaborative learning to K–6 students

TUCSON—Nov. 6, 2018—Learning A-Z® today announced that the New Mexico Public Education Department has adopted Science A-Z® as a supplemental science resource for its elementary students. Aligned to Next Generation Science Standards (NGSS) and Common Core English Language Arts Standards, Science A-Z includes print and online resources, engaging science experiments, hands-on activities, and other collaborative learning opportunities that allow students to think and act like scientists.

“Science A-Z puts the excitement of science in every student’s hands,” said Patrick Marcotte, president of Learning A-Z. “In addition to its award-winning, standards-aligned curriculum, Science A-Z provides teachers with resources for every student, at every learning level. Science A-Z enhances traditional teacher-led instruction with online resources to support differentiated instruction and blended learning, and we are thrilled to be an integral part of engaging students in science instruction and content-area literacy in New Mexico schools.”

Blending science and literacy into one captivating K–6 curriculum, Science A-Z delivers thousands of resources in Life Science, Earth and Space Science, Physical Science, Engineering, and Process Science. In addition to a robust library of multilevel informational texts, Science A-Z provides hands-on activities, experiments, and projects that allow students to engage in open-ended, inquiry-based challenges and develop the practices used by real scientists and engineers.

Science A-Z content is available in online, projectable, mobile and printable formats, providing a flexible learning environment that encourages creativity and customization. Resources can be used for one-to-one, small-group, and whole-class instruction.
